Software Development A			Software Development B		
	<b>1</b>	<b>Software</b>		<b>1</b>	<b>Requirements</b>
		1.1 Software requirements			1.1 Software requirements
		1.2 Initial software design			1.2 Hardware requirements
		1.3 Final software design			1.3 Documentation requirements
		1.4 Software construction			1.4 Training requirements
		1.5 Software complete			
	<b>2</b>	<b>Hardware</b>		<b>2</b>	<b>Design</b>
		2.1 Hardware requirements			2.1 Initial software design
		2.2 Initial hardware design			2.2 Final software design
		2.3 Final hardware design			2.3 Initial hardware design
		2.4 Hardware acquisition			2.4 Final hardware design
		2.5 Hardware installation			
	<b>3</b>	<b>Documentation</b>		<b>3</b>	<b>Construction</b>
		3.1 Hardware requirements			3.1 Software construction
		3.2 Develop documentation			3.2 Hardware aquisition & installation
		3.3 Approved documentation			3.3 Develop documentation
	<b>4</b>	<b>Training</b>			3.4 Training materials
		4.1 Hardware requirements			
		4.2 Training materials		<b>4</b>	<b>Testing</b>
		4.3 Approved training materials			5.1 Develop test plans
	<b>5</b>	<b>Testing</b>			5.2 Develop test cases
		5.1 Develop test plans			5.3 Unit test (multiple)
		5.2 Develop test cases			5.4 System test
		5.3 Unit test (multiple)			5.5 Approved documentation
		5.5 System test			5.6 User acceptance test
		5.6 User acceptance test			
	<b>6</b>	<b>Project management</b>		<b>5</b>	<b>Project management</b>
	<b>7</b>	<b>Project Close</b>		<b>6</b>	<b>Project Close</b>
