

Chapter 2: Locating Literature and Refining a Research Topic

1. Choice B: False. **2.** How many times a document has been cited and where. **3.** Narrower terms and related terms. **4.** Choice C: OR. **5.** To identify articles that are most relevant because the author used the term in the title and/or abstract. Note: In an unrestricted search, the term might appear any place in an article and may be mentioned only in passing because the term is peripheral to the main thrust of the [article](#). **6.** www.FedStats.gov **7–14.** Answers may vary.
