- A** 2. Expense
- F** 3. Net income
- C** 4. Ledger
- D** 5. Posting
- I** 6. Normal balance
- J** 7. Payable
- E** 8. Journal
- H** 9. Receivable
- B** 10. Owners' equity

(5 min.) S 2-4

Anderson's payment was *not* an expense.

Anderson acquired an *asset*, Equipment, because the computer is an economic resource of the business.

(5 min.) S 2-5

- a. **Purchase of asset on account**
 Borrow money

- b. **Declaration and payment of dividends to owners**
 Expense transaction (ex: received and paid utility bill)

- c. **Pay a liability**
 Return an asset purchased on account

- d. **Issuance of stock**
 Revenue transaction (ex: provided services on account or for cash)

- e. **Purchase of asset for cash**
 Sale of asset for cash
 Collection of an account receivable

(Answers may vary.)

(5 min.) S 2-6

Revenues.....		39
Expenses.....	<u>24</u>	<u> </u>
Total.....	<u>\$51</u>	<u>\$51</u>

Navy Port Company's net income: \$15 million (\$39 – \$24)

1. Total assets = \$94,000 (\$4,000 + \$14,000 + \$1,000 + \$48,000 + \$27,000)
2. Total liabilities = \$80,000 (\$54,000 + \$26,000)
3. Net income (loss) = (\$8,000) (\$31,600 – \$29,000 – \$9,000 – \$1,600)

1. Total debits = \$ 90,400 (\$133,600 + \$4,800 – \$48,000)

Total credits = \$133,600

Difference = \$ 43,200 (\$133,600 – \$90,400);

\$43,200 / 9 = \$4,800 (an integer), which suggests either a transposition or a slide.

2. Total debits = \$160,600 (\$133,600 + \$41,000 – \$14,000)

Total credits = \$133,600

Difference = \$ 27,000 (\$160,600 – \$133,600);

\$27,000 / 9 = \$3,000 (an integer), which suggests either a transposition or a slide.

3. Total debits = \$119,600 (\$133,600 – \$14,000)

Total credits = \$147,600 (\$133,600 + \$14,000)

Difference = \$ 28,000 (\$147,600 – \$119,600)

\$28,000 / 2 = \$14,000 (original amount of accounts receivable).

Exercises

(10-15 min.) E 2-17A

TO: Home Office

FROM: Laura Sprague, Store Manager

During the first week, I used the store's beginning cash to purchase equipment and supplies. I signed a note payable to buy land and a building. After all these transactions, the store's balance sheet appears as follows:

**Designs Unlimited
Columbus Store
Balance Sheet
Date**

ASSETS		LIABILITIES	
Cash	\$ 55,400	Note payable*	\$275,000
Supplies	6,600		
Land	76,000	STOCKHOLDERS' EQUITY	
Building	199,000	Common stock	<u>98,000</u>
Equipment	<u>36,000</u>	Total liabilities and	
Total assets	<u><u>\$373,000</u></u>	stockholders' equity	<u><u>\$373,000</u></u>

***\$76,000 + \$199,000 = \$275,000**

Cash	
<u>98,000</u>	<u>36,000</u>
	<u>6,600</u>
<u>55,400</u>	

- a. No effect on total assets. Increase in cash offsets the decrease in land.**
- b. No effect on total assets. Increase in cash offsets the decrease in accounts receivable.**
- c. No effect on total assets. Increase in land offsets the decrease in cash.**
- d. Increased assets. (Cash)**
- e. No effect. (A personal transaction)**
- f. Increased assets. (Equipment)**
- g. Increased assets. (Office supplies)**
- h. Increased assets. (Cash)**
- i. Decreased assets. (Cash)**
- j. Decreased assets. (Cash)**

Req. 1

Req. 1

Dear Amy,

This trial balance lists the accounts of the company, along with their balances at December 31, 2016. The trial balance provides the data for computing total assets, total liabilities, and net income or net loss.

Larrabee Design reports:

- a. Total assets = \$392,500 (\$13,000 + \$47,000 + \$5,500 + \$103,000 + \$224,000)**
- b. Total liabilities = \$148,400 (\$50,400 + \$98,000)**
- c. Net income = \$91,000 (\$220,000 – \$33,000 – \$15,000 – \$79,000 – \$2,000)**

Student responses may vary but should include these calculations.

Req. 1**Analysis of Transactions**

Challenge Exercises and Problem

(20-40 min.) E 2-70

Req. 1

a. Total cash paid during December:

Cash			
Nov. 30 Bal.	16,500		
Dec. receipts	91,000	Dec. payments	X = \$99,250
Dec. 31 Bal.	8,250		

$$\$16,500 + \$91,000 - X = \$8,250$$

$$X = \$99,250$$

b. Cash collections from customers during December:

Accounts Receivable			
Nov 30 Bal.	23,000		
Dec. sales			
on account	42,000	Dec. collections	X = \$44,000
Dec. 31 Bal.	21,000		

$$\$23,000 + \$42,000 - X = \$21,000$$

$$X = \$44,000$$

c. Cash paid on notes payable during December:

Notes Payable			
		Nov. 30 Bal.	11,500
X = \$23,000	Dec. note payments	X	Dec. new borrowing 31,000
			Dec. 31 Bal. 19,500

$$\$11,500 + \$31,000 - X = \$19,500$$

$$X = \$23,000$$

Req. 1

**4AC, Inc.
Trial Balance
October 31, 2016**

Cash.....	\$ 3,900	
Accounts receivable.....	7,100	
Land.....	30,100	
Accounts payable.....		\$ 6,200
Note payable.....		5,900
Common stock.....		24,100
Retained earnings.....		1,700
Service revenue.....		9,400
Salary expense.....	2,900	
Advertising expense.....	<u>1,400</u>	
Totals.....	<u>\$45,400</u>	<u>\$47,300</u>

Out of balance by \$1,900

The correct balance of Accounts Receivable is \$9,000* (\$7,100 + \$1,900). After this correction, total debits will be \$47,300 (\$45,400 + \$1,900), the same as total credits.

Req. 2

- a. Total assets = \$43,000 (\$3,900 + \$9,000* + \$30,100)
- b. Total liabilities = \$12,100 (\$6,200 + \$5,900)
- c. Net income = \$ 5,100 (\$9,400 – \$2,900 – \$1,400)

Req. 1**Henderson Co.:**

Income statement		November	December
Employee medical exp. .		\$38,000	\$ -0-
Balance sheet		Nov. 30	Dec. 31
Cash		\$57,000	\$30,000*
Accounts payable		38,000	11,000**

Goodland Hospital:

Income statement		November	December
Service revenue		\$38,000	\$ -0-
Balance sheet		Nov. 30	Dec. 31
Cash		\$ -0-	\$27,000
Accounts receivable		38,000	11,000**

Req. 2**Explanation:**

Henderson's \$38,000 expense is Goodland's revenue.

Henderson's \$27,000 cash payment is Goodland's cash receipt.

Henderson's \$11,000 account payable is Goodland's account receivable.

$$*\$57,000 - \$27,000 = \$30,000$$

$$**\$38,000 - \$27,000 = \$11,000$$

Req. 1

Date	Effect on Cash	Effect on Total Assets	Effect on Net Income
May 1	Understated \$100	Overstated \$100	Overstated \$100
2	Understated \$18,000	Understated \$18,000	Understated \$18,000

Advertising expense	1,800	
Rent expense	<u>1,200</u>	
Total.....	<u>\$27,900</u>	<u>\$27,900</u>

Req. 4 (net income or loss for first month of operations)**Revenues:**

Service revenue \$10,500

Expenses:

Salary expense..... \$2,000

Advertising expense..... 1,800

Rent expense..... 1,200

Total expenses..... 5,000

Net income for month \$5,500

Recommendation: Barlow's criteria for remaining in operation was to earn net income of \$5,000. His actual result was just over this goal. Yes, I would recommend that he stay in business.

(20-30 min.) Decision Case 2

Little Italy, Inc.
Income Statement
Month Ended December 31, 2016

Sales revenue.....	\$42,000
Expenses:	
Cost of sales (expense).....	22,000
Rent expense.....	6,000
Advertising expense.....	<u>5,000</u>
Total expenses.....	<u>33,000</u>
Net income.....	<u>\$ 9,000</u>

Little Italy, Inc.
Balance Sheet
December 31, 2016

ASSETS		LIABILITIES	
Cash.....	\$ 12,000	Accounts payable	\$ 8,000
Food inventory.....	5,000	STOCKHOLDERS' EQUITY	
Furniture.....	<u>10,000</u>	Common stock	10,000
		Retained earnings	<u>9,000*</u>
		Total stockholders' equity	<u>19,000</u>
		Total liabilities	
Total assets	<u>\$27,000</u>	and stockholders' equity .	<u>\$27,000</u>

*Must solve for this amount. It is also the amount of net income, which is the only change in retained earnings for the month.

Recommendation: Do not expand this month. The business falls short of the goals for both net income and total assets. However, Little Italy, Inc. appears to be profitable, and assets are building toward Gardner's goals. Maybe next month.

Ethical Issue 1

1. The ethical issue is whether these alternatives of financing the business are proper from an economic, legal, and ethical standpoint.
2. The stakeholders are Scruffy Murphy, the bank, potential new and existing creditors, and the friend who may become a stockholder. Consequences to the creditors are the inability of the company to pay interest and the loan. Consequences to the investors are the inability of the company to pay dividends and the possibility of loss of investment if the company goes bankrupt.

3.

Option 1:	Cash	200,000	
	Common Stock.....		200,000
Option 2:	Land	200,000	
	Common Stock.....		200,000
	Common Stock	200,000	
	Land.....		200,000

Option 1 is economically sound, perfectly legal, and also ethical because the sale of the stock is a valid transaction between the business and a stockholder. The consequences of this decision are that Murphy obtains additional financing at a cost (he now shares ownership of the business with his friend). The friend gives up cash in exchange for an ownership interest in the business. The bank and future creditors obtain complete and truthful disclosure of the manner in which the business has been financed.

Option 2 represents “window dressing” (making the company look like an entity that it is not). Although it might be legal in the strictest sense of the word (and it might not), this option does not faithfully represent economic reality. Thus, it is not in accordance with GAAP, which is a substitute for the legal criterion. This option is also unethical because the receipt of the land by the business is not a real transaction. The transfer of the land back to

Murphy means that the business never actually has the land for its use. It violates the rights of the bank and future creditors to give them information that is inaccurate and that does not faithfully represent economic reality.

- 4. The best option to take is definitely Option 1. The decision maker can walk away from this transaction confident that he or she told the truth.**

Ethical Issue 2

Part a.

1. The ethical issue is whether you should question your grade, which is higher than you expected. Your choices are (a) discuss the grade with the professor; and (b) do not discuss the grade with the professor.

2, 3. Stakeholders are you, the professor, the other students in the class, and the university. The possible consequences to you of discussing the grade with the professor is that it may lead to the discovery that the professor made a mistake in calculating the grade, which may lead to a downward adjustment. While this could possibly have adverse economic consequences (i.e., perhaps loss of scholarship if the grade is substantially lowered), it is unlikely that a letter-grade drop in one course would have such an impact on grade point average as to cause loss of a scholarship. There is no legal consequence to reporting a grade that is too high. The ethical consequence is generally positive on all concerned, as it leads to clarification of the true grade.

4. Student opinions will vary on this part.

Part b.

1. The ethical issue in this case is whether you should question your grade, which is now lower than you expected. Your choices are (a) discuss the grade with the professor; and (b) do not discuss the grade with the professor.

2, 3. Like part a, the stakeholders are you, the professor, the other students in the class, and the university. The possible consequences to you of discussing the grade with the professor is that it may lead to the discovery that the professor made a mistake in calculating the grade, which may lead

to an upward adjustment. This could have positive economic consequences (i.e., perhaps keeping a scholarship). Like part a, the ethical consequence of this action is generally positive on all concerned, as it leads to clarification of the true grade.

4. Most students would probably respond “take it to the professor.” But shouldn’t we be just as concerned about knowing the true grade either way? The author recommends discussing the grade with the professor one way or the other.

Part c.

Both course grades and financial statements report results that people use in order to make decisions that can carry both positive and negative consequences. In both situations, it is important that the user receive relevant information, and that the information faithfully represent facts as they actually occurred.

	Cash	4,027

Req. 4

All the selected account balances agree with Apple Inc.'s actual figures on the income statement or the balance sheet.

Req. 5

Revenue:	(Millions)	
Net sales	\$182,795	
Other Income/(Expense), net	<u>980</u>	
Total revenue		183,775
Expenses:		
Cost of sales.....	\$112,258	
Operating expenses.....	18,034	
Provision for income taxes	<u>13,973</u>	
Total expenses		<u>144,265</u>
Net Income.....		<u>\$ 39,510</u>

The net income of \$39,510 million equals the net income reported on Apple's income statement.

Focus on Analysis: Under Armour, Inc.

(20-30 min.)

Req. 1

During fiscal 2014, Under Armour, Inc. had more net revenues than cash collections. This is determined by analyzing net receivables, as follows:

Net receivables:

	(Thousands)
Balance at the end of fiscal 2013	\$ 209,952
+ Net revenues during fiscal 2014 (from consolidated statements of income)	3,084,370
– Collections from customers during fiscal 2014	____(X)
= Balance at the end of fiscal 2014	<u>\$ 279,835</u>

Solving for X, collections were \$3,014,487 ($\$209,952 + \$3,084,370 - \$279,835$). Another way to express this relationship is that when accounts receivable increase during the year, revenues must exceed cash collections. If accounts receivable decrease during the year, cash collections must exceed revenues.

Req. 2

Net revenues increased 32.26% in 2014, which is better than in 2013 (27.09%) perhaps due to a better strategic alignment. Net income increased more in 2014 (28.16%) than in 2013 (26.05%). Net income grew slower than net revenues during the two year period due to a larger tax bill and additional sources of expenses due to expansion. For example, interest expense increased 81.90% in 2014 and selling, general and administrative expenses increased 32.89% in 2014.

	2014	2013	2012
Net revenues (thousands)	\$3,084,370	\$2,332,051	\$1,834,921
\$ change	752,319	497,130	
Percentage change	32.26%	27.09%	
 Net income (thousands)	 \$208,042	 \$162,330	 \$128,778
\$ change	45,712	33,552	
Percentage change	28.16%	26.05%	

Group Projects

Student responses will vary.

Chapter 2 - Transaction Analysis
Directed Reading Worksheet

Part I: Explain what a transaction is (LO1)

1. A(n) _____ is any event that has a financial impact on the business and can be measured reliably.
2. What two things must happen for an event to be considered a transaction?

Part II: Define "account," and list and differentiate between different types of accounts (LO2)

3. What is the accounting equation?
4. A(n) _____ is the record of all the changes in a particular asset, liability, or stockholders' equity during a period.
5. What is the definition of an asset?
6. List seven asset accounts that a company is likely to have.

7. What is the definition of a liability?
8. List the three most common types of liabilities.
9. What is stockholders' equity?
10. What five main types of accounts are in stockholders' equity?
11. What effect does a dividend declaration have on retained earnings?
12. What effect does revenue have on stockholders' equity? What effect do expenses have on stockholders' equity?

Part III: Show the impact of business transactions on the accounting equation

13. For each item, indicate the impact of that transaction on assets, liabilities, and equity. Assume that all transactions, unless stated otherwise, are in cash.

	Transaction	Assets (increase + or decrease -)	=	Liabilities (increase + or decrease -)	+	Equity (increase + or decrease -)
1.	Received \$50,000 cash and issued stock to the owners					
2.	Paid \$40,000 cash for land					
3.	Bought \$3,700 of supplies on account					
4.	Received \$7,000 cash from customers for service revenue earned					
5.	Performed services for customers on account, \$3,000					
6.	Paid cash expenses: rent, \$1,100; employee salary, \$1,200; utilities, \$400					
7.	Paid \$1,900 on the account payable created in transaction 3					
8.	Major stockholder paid personal funds to remodel home, not a business transaction					
9.	Received \$1,000 on account					
10.	Sold land for cash at the land's cost of \$22,000					
11.	Declared and paid a dividend of \$2,100 to the stockholders					

14. What line item is carried from the Income Statement to the Statement of Retained Earnings?
What line item is carried from the Statement of Retained Earnings to the Balance Sheet?

Part IV: Analyze the impact of business transactions on accounts

15. Describe what it means that accounting is based on a double-entry system?
16. The left side of each t-account is the _____ side, and the right side is the _____ side.
17. Describe how debits and credits affect asset, liability, and stockholders' equity accounts.
18. How do debits and credits affect dividend, expense, and revenue accounts.

Part V: Record (journalize and post) transactions in the books

19. What is the chronological record of transactions that accountants use called?

20. List the three steps of the journalizing process.

- a. _____
- b. _____
- c. _____

21. The _____ is a grouping of all the T-accounts, with their balances.

22. What does “posting” mean?

23. Post the following transactions to the ledger accounts. Use t-accounts to represent the ledger accounts. (Transactions 1-4 from question 13)

1.	Received \$50,000 cash and issued stock to the owners
2.	Paid \$40,000 cash for land
3.	Bought \$3,700 of supplies on account
4.	Received \$7,000 cash from customers for service revenue earned

Part VI: Construct and use a trial balance

24. Describe a trial balance, including its purpose.
25. What formula could you use to analyze the cash account and compute cash payments for the period if you were unsure of the amount of cash payments?
26. What three strategies could help you detect and correct accounting errors made during the period?
- a. _____
 - b. _____
 - c. _____
27. What do organizations use to list all of their accounts and account numbers?
28. Describe what an account's "normal balance" means.

29. Indicate the normal balance for each of the following types of accounts:

- a. Assets
- b. Liabilities
- c. Stockholders' equity – overall
 - i. Common stock
 - ii. Retained earnings
 - iii. Dividends
 - iv. Revenues
 - v. Expenses

30. What is an advantage of using the four-column account format?

31. On what statement do companies report their results of operations? On what statement do companies report their financial position?

Chapter 2 - Transaction Analysis
Directed Reading Worksheet Answer Key

Part I: Explain what a transaction is (LO1)

1. Transaction
2. (1) It gives something, and (2) it receives something in return.

Part II: Define “account,” and list and differentiate between different types of accounts (LO2)

3. $\text{Assets} = \text{Liabilities} + \text{Stockholders' (Owners') Equity}$
4. Account
5. Economic resources that provide a future benefit for a business
6. Cash, Accounts receivable, Inventory, Prepaid expenses, Film and television costs, Investments, and Parks, Resorts, and Other Property
7. Liabilities are debt. Amounts owed to other parties (payables).
8. Accounts payable, Notes payable, and Accrued liabilities
9. The owners' claims to the assets of a corporation
10. Common stock, Retained earnings, Dividends, Revenues, and Expenses
11. Dividends decrease retained earnings
12. Expenses decrease stockholders' equity.
Revenues increase stockholders' equity.

13.

	Transaction	Assets (increase + or decrease -)	=	Liabilities (increase + or decrease -)	+	Equity (increase + or decrease -)
1.	Received \$50,000 cash and issued stock to the owners	50,000	=		+	50,000
2.	Paid \$40,000 cash for land	(40,000) +40,000	=		+	
3.	Bought \$3,700 of supplies on account	3,700	=	3,700	+	
4.	Received \$7,000 cash from customers for service revenue earned	7,000	=		+	7,000
5.	Performed services for customers on account, \$3,000	3,000	=		+	3,000
6.	Paid cash expenses: rent, \$1,100; employee salary, \$1,200; utilities, \$400	(2,700)	=		+	(2,700)
7.	Paid \$1,900 on the account payable created in transaction 3	(1,900)	=	(1,900)	+	
8.	Major stockholder paid personal funds to remodel home, not a business transaction	N/A	=	N/A	+	N/A
9.	Received \$1,000 on account	+1,000 (1,000)	=		+	
10.	Sold land for cash at the land's cost of \$22,000	+22,000 (22,000)	=		+	
11.	Declared and paid a dividend of \$2,100 to the stockholders	(2,100)	=		+	(2,100)

14. Net income

Ending retained earnings

Part IV: Analyze the impact of business transactions on accounts

15. The dual effects of each transaction are always recorded. Every transaction affects at least two accounts.

16. Debit; credit

17. Debits increase assets and decrease liabilities and stockholders' equity. Credits decrease assets and increase liabilities and stockholders' equity.

18. Debits increase dividends and expenses but decrease revenues. Credits decrease dividends and expenses but increase revenues.

Part V: Record (journalize and post) transactions in the books

19. Journal

20. a. Specify each account affected by the transaction and classify each account by type.
b. Determine whether each account is increased or decreased by the transaction. Use the rules of debit and credit to increase or decrease each account.
c. Record the transaction in the journal, including a brief explanation. The debit side is entered on the left margin, and the credit side is indented to the right.

21. Ledger

22. Posting means to copy data (amounts) from the journal to the ledger.

23.

Cash		Common Stock		Land		Service Revenue	
(1) 50,000	(2) 40,000		(1) 50,000	(2) 40,000			(4) 7,000
(4) 7,000							
Supplies		Accounts Payable					
(3) 3,700			(3) 3,700				

Part VI: Construct and use a trial balance

24. A trial balance lists all of the accounts with their balances. It starts with assets, then liabilities and stockholders' equity. The trial balance summarizes all the account balances and shows whether total debits equal total credits. The trial balance facilitates in the preparation of the financial statements.
25. $\text{Cash payments} = \text{Beginning balance} + \text{Cash receipts} - \text{Ending balance}$
26. a. Search the records for a missing account.
b. Divide the out-of-balance amount by 2.
c. Divide the out-of-balance amount by 9.
27. Chart of accounts
28. Normal balance is the side of the account where increases are recorded. In order to increase an asset, you debit it, therefore assets have a normal debit balance.
29. Normal balances:
- a. Assets – **debit**
 - b. Liabilities – **credit**
 - c. Stockholders' equity – overall – **credit**
 - i. Common stock – **credit**
 - ii. Retained earnings – **credit**
 - iii. Dividends – **debit**
 - iv. Revenues – **credit**
 - v. Expenses – **debit**
30. It keeps a running balance in the two right columns.
31. Results of operations are reported on the income statement, while the company's financial position can be found on the balance sheet.

Chapter 2: Transaction Analysis

Learning Objectives

1. **Explain** what a transaction is
2. **Define** “account” and **list** and **differentiate** between different types of accounts
3. **Show** the impact of business transactions on the accounting equation
4. **Analyze** the impact of business transactions on accounts
5. **Record** (journalize and post) transactions in the books
6. **Construct and use** a trial balance

Chapter 2 Outline

- I. A Business Transaction
 - A. Any event that has a financial impact on the business and can be measured reliably
 - B. Giving something
 - C. Receiving something in return
- II. Account
 - A. Record of all the changes in a particular asset, liability, or stockholders’ equity during a period
 - B. Categories
 1. Assets (Examples: Cash, Accounts Receivable, Inventory)
 2. Liabilities (Examples: Accounts Payable, Notes Payable, Accrued Liabilities)
 3. Stockholders’ (Owners’) Equity (Examples: Common Stock, Retained Earnings, Dividends, Revenues, Expenses)
- III. Transaction Examples
 - A. Impact on the accounting equation (the equation always stays in balance)
 - B. Impact on the financial statements
- IV. Impact of Business Transactions on Accounts
 - A. Double-entry accounting system
 - B. T-account:

ACCOUNT TITLE	
Debit	Credit

1. Debit – “left or left-hand side”
 2. Credit – “right or right-hand side”
- C. Rules of debit and credit

1. Debit – Increases in assets, expenses, and dividends; decreases in liabilities, stockholders' equity, and revenues
 2. Credit – Increases in liabilities, stockholders' equity, and revenues; decreases in assets, expenses, and dividends
- D. Balance = amount remaining in an account
- E. Revenues (Examples: Sales Revenue, Legal Fees Earned, Service Revenue)
- F. Expenses (Examples: Cost of Goods Sold, Salaries Expense, Utilities Expense)
- V. Record Transactions in the Books
- A. Journal – A chronological record of transactions
- B. Journalizing example:

Account and Explanation	Debit	Credit
Cash	50,000	
Common Stock		50,000
<i>Issued common stock</i>		

- C. Ledger – Grouping of all the T-accounts, with their balances
- D. Posting – Data must be copied from the journal to the ledger
- E. Posting example:

Account and Explanation	Debit	Credit
Cash	50,000	
Common Stock		50,000
<i>Issued common stock</i>		

Cash	
50,000	

Common Stock	
	50,000

- F. Flow of accounting data

- VI. Construct and Use a Trial Balance
- A. Analyzing accounts
 - B. Correcting accounting errors
 - C. Chart of accounts
 - D. Normal account balances:

Account Type	Normal Balance	Increase	Decrease
Asset	Debit	Debit	Credit
Liability	Credit	Credit	Debit
Stockholders' Equity	Credit	Credit	Debit
Revenue	Credit	Credit	Debit
Expense	Debit	Debit	Credit
Common Stock	Credit	Credit	Debit
Retained Earnings	Credit	Credit	Debit
Dividends	Debit	Debit	Credit

- E. Account formats
- F. How to analyze transactions from T-accounts

Chapter Activities

1. Chapter Opener

Chapter 2 spotlight continues with the Walt Disney Company discussion from Chapter 1 and discusses the sources of some of the millions of transactions that Disney records each year, resulting in billions of dollars of revenues. Throughout the chapter, references are made to the accounts and transactions that Disney reports in their financial statements. Again, have the students review the Walt Disney website at <https://thewaltdisneycompany.com>, and study the financial statements, focusing on the consolidated statements of income (found in the annual report), and discuss what items might make up the company's revenues. Additionally, discuss the items that could be included in the expense figures for Disney. This could lead to a discussion about how a company determines its net income or net loss.

2. Transactions Activity

Use the game Monopoly as an example of a business that would engage in transactions for a particular period. Examples of transactions that a player of the game might encounter include:

- 1) Receive \$1,500 in cash to be used as capital investment
- 2) Bank pays you a dividend of \$50
- 3) Purchase Park Place for \$35
- 4) Pay poor tax of \$15
- 5) Purchase house for property on Park Place for \$200
- 6) Pay rent on Baltic Avenue of \$4
- 7) Receive for services \$25
- 8) From sale of common stock, you get \$45
- 9) Pay school tax of \$150
- 10) Collect rent on Park Place of \$175
- 11) Pay rent on Pennsylvania Railroad of \$25
- 12) Pay Water Works \$60
- 13) Mortgage Park Place for \$175

Place the students into groups and use the chart of accounts below. Have the students put each of the transactions in journal entry form.

Cash
Dividend Revenue
Common Stock
House
Investment Revenue
Land
Mortgage Payable
Rent Expense
Rent Revenue
Tax Expense
Service Revenue
Utilities Expense

Difficult Topics

- Rules of debit and credit

Answer Key to Chapter 2 Quiz (Quiz on following pages)

1. A
2. C
3. C
4. B
5. D
6. B
7. A
8. B
9. D
10. C

Name _____ Date _____
Section _____

CHAPTER 2
10-MINUTE QUIZ

Circle the letter of the best response.

1. Which of the following accounts is decreased with a credit?
A. Accounts Receivable
B. Accounts Payable
C. Rent Revenue
D. Service Revenue
2. The ledger is:
A. Always expected to have a debit balance.
B. An event that has an economic impact on the business.
C. A grouping of all T-accounts, with their balances.
D. None of the above
3. The journal is:
A. A listing of all open accounts and their balances.
B. A listing of all accounts used to record the business transactions.
C. A chronological record of transactions.
D. Not necessary to record transactions.
4. Which of the following accounts is decreased with a debit?
A. Equipment
B. Accounts Payable
C. Cash
D. Payroll Expense
5. The Spartain Company received \$3,600 from a customer on account. The entry to record this transaction is:
A. Accounts Receivable 3,600
 Cash 3,600
B. Cash 3,600
 Accounts Payable 3,600
C. Revenue 3,600
 Cash 3,600
D. Cash 3,600
 Accounts Receivable 3,600

6. In analyzing a transaction using the accounting equation, which account is included in the Stockholders' Equity section?
- A. Accounts Payable
 - B. Revenue
 - C. Accounts Receivable
 - D. Cash
7. Cash at the beginning of March was \$5,670. During the month, cash receipts totaled \$78,990. Ending cash at March 31 was \$2,340. Cash disbursements during March must have been:
- A. \$82,320
 - B. \$84,660
 - C. \$75,660
 - D. Cannot be determined from the information given.
8. A trial balance:
- A. Requires that every transaction affect at least two accounts.
 - B. Lists all accounts with their balances.
 - C. Mandates that the dollar sum of the debits equal that of the credits for each transaction.
 - D. None of the above
9. When a company sells merchandise, but the customer does not pay it immediately, it should:
- A. Credit Accounts Payable.
 - B. Make no entry.
 - C. Credit Accounts Receivable.
 - D. Debit Accounts Receivable.
10. An expense:
- A. Has the same normal balance as liabilities.
 - B. Is the decrease in liabilities as a result of providing goods or services.
 - C. Is the decrease in stockholders' equity as a result of providing goods or services.
 - D. Is the increase in stockholders' equity as a result of providing goods or service

Chapter 2: Questions You Should Be Able To Answer

Learning Objective	Question(s)	Answer	For practice
1. Explain what a transaction is	What is a business transaction?	A transaction is any event that has a financial impact on the business and can be measured reliably.	S2-1 S2-9
2. Define “account,” and list and differentiate between different types of accounts	• What is an account?	• An account, the basic summary device of accounting, is the record of all the changes in a particular asset, liability, or stockholders’ equity during a period.	S2-3
	• Describe the following accounts: 1. Assets 2. Liabilities 3. Stockholders’ equity 4. Revenues 5. Expenses 6. Dividends	1. Economic resources that provide a future benefit for a business. 2. Debts of the business, due in cash or goods/services, 3. The owners’ claims to the assets of the corporation, including common stock and retained earnings. 4. Increases in stockholders’ equity that result from delivering goods or services to customers. 5. Decreases in stockholders’ equity that result from costs of operating a business. 6. Distributions to shareholders, usually in cash, from profitable operations; dividends decrease retained earnings.	S2-2 S2-4

Learning Objective	Question(s)	Answer	For practice
3. Show the impact of business transactions on the accounting equation			S2-5 S2-6
4. Analyze the impact of business transactions on accounts	What is the double-entry system of accounting?	Every transaction affects at least two accounts.	S2-7 S2-8 S2-9
	What is a T-account?	The letter, T; the name of the account is written on the top. Debit entries are on the left side with credit entries on the right side of the T-account.	
	<ul style="list-style-type: none"> What are the rules of debit and credit? 	<ul style="list-style-type: none"> Assets increase with a debit and decrease with a credit. Liabilities and stockholders' equity increase with a credit and decrease with a debit. (Note that the rules are the opposite on opposite sides of the accounting equation.) Revenues increase with a credit and expenses increase with a debit. Dividends increase with a debit. (Note that revenues increase retained earnings and expenses and dividends decrease retained earnings.) 	

Learning Objective	Question(s)	Answer	For practice
5. Record (journalize and post) transactions in the books	What is a journal?	A chronological record of business transactions; the first place a transaction is recorded.	S2-10 S2-11, S2-12, S2-13
	What is the ledger?	A grouping of the T-accounts, along with their balances.	
	What occurs during posting?	Transactions are posted or copied from the journal to the ledger (always in that order). A balance is calculated for each account in the ledger.	
6. Construct and use a trial balance	What is a trial balance?	A list of all accounts with their balances—assets first, then liabilities and stockholders' equity (including revenue and expense accounts). Account balances are listed in either the debit column or the credit column, and the columns are totaled. They should be equal.	S2-14 S2-15 S2-16
	What does a trial balance prove?	That equal debits and credits have been recorded.	
	How can the trial balance be used?	To facilitate preparation of financial statements (although they will be more accurate after adjusting entries are added in the next chapter).	
	How can accounting errors be detected?	<ol style="list-style-type: none"> 1. Search for missing amounts. 2. If the two columns of the trial balance are not equal, search for an entry of that amount. 3. Divided the difference between the two columns by 9 to determine if there is a slide or transposition error. 	
Ethics Check			EC-1

Learning Objective	Question(s)	Answer	For practice
6. Construct and use a trial balance (continued)	• How can the trial balance be used?	• To facilitate preparation of financial statements (although they will be more accurate after adjusting entries are added in the next chapter)	
	• How can accounting errors be detected?	<ul style="list-style-type: none"> • Search for missing amounts • If the two columns of the trial balance are not equal, search for an entry of that amount • Divide the difference between the two columns by 9 to determine if there is a slide or transposition error 	
Ethics Check			EC2-1

Chapter 2: Assignment Grid

Assignment	Topic(s)	L.O.	Estimated Time (minutes)	Level of Difficulty	(Will have an X if available)

Chapter 2: Locating an annual report/Form 10-K

Initial posting

In this discussion, you will use information you find in a company's Form 10-K, which is the annual report that publicly-held companies file with the Securities & Exchange Commission (SEC.)

The first thing you need to do is find a recent 10-K (issued within the past twelve months) for a publicly-held company in which you are interested.

To find a Form 10-K, you will use the SEC Edgar database. Search online for "SEC Edgar." If you know what company you are interested in, you might also be able to go to that company's Investor Relations website and locate its Form 10-K there. You can also view a short video about how to locate a Form 10-K on the SEC EDGAR site at <http://youtu.be/MPgvGua9-RM>.

In your first posting for this discussion, describe the company you selected for the Form 10-K. Give the company's full official name. Give the URL for the direct download of the company's 10-K that you are referencing. You will want to talk about what this company does and the products it sells. What is the company's year end (date)? Also tell why you selected this company. Why does this company interest you? Is this somewhere you might be interested in working at some day? Are you passionate about the company's products?

Your posting should be 100 – 300 words. Do not copy phrases from the Form 10-K; write your post in your own words. You can include information from the financial statements or Note 1 as well. Include one item in your paragraph that you found particularly interesting or surprising. You also need to post (in that same initial posting) a question about something in the 10-K (the parts described above only) that puzzles you; some question you have from reading the parts described.

Follow-up posting

For your follow-up posting(s) for the week (the one(s) due by Saturday), you will reply to someone's question(s). Use your textbook as your reference. Have reasons (facts) behind your answer (please note: Wikipedia is not an appropriate source, nor are many websites you find.) Do try to answer the question and provide rationale for your answer (again, your textbook is the best source in most cases).

ELEVENTH EDITION

Financial Accounting

HARRISON | HORNGREN | THOMAS | TIETZ

Financial Accounting

Chapter Two: Transaction Analysis

Learning Objectives

1. **Explain** what a transaction is
2. **Define** “account,” and **list** and **differentiate** between different types of accounts
3. **Show** the impact of business transactions on the accounting equation
4. **Analyze** the impact of business transactions on accounts
5. **Record** (journalize and post) transactions in the books
6. **Construct and use** a trial balance

Learning Objective One

Explain what a transaction is

Explain What a Transaction Is

A **transaction** is any event that has a financial impact on the business and can be measured reliably.

- Provides objective information about the financial impact on an exchange
 - Gives something
 - Receives something
- Accounting records both sides of the transaction

Learning Objective Two

Define “account,” and list and differentiate between different types of accounts

Define Account

The accounting equation expresses the basic relationship of accounting.

$$\text{Assets} = \text{Liabilities} + \text{Stockholders' (Owners') Equity}$$

Define Account

An **account** is the record of all the changes in a particular asset, liability, or stockholders' equity during a period.

➤ Basic summary device

List and Differentiate Between Different Types of Accounts

Assets: economic resources that provide a future benefit

Cash

Money including bank account balances, paper currency, coins, certificates of deposits, and checks

Accounts Receivable

Promise for future cash for goods or services

Inventory

Goods the company sells to customers

List and Differentiate Between Different Types of Accounts

Assets: economic resources that provide a future benefit

Prepaid Expenses

Expenses paid in advance, such as insurance or rent

Investments

Interests purchased and held in other companies

Property, Plant, and Equipment

Cost of the land, buildings, and equipment owned by a company

List and Differentiate Between Different Types of Accounts

Assets: economic resources that provide a future benefit

Prepaid Expenses

Expenses paid in advance, such as insurance or rent

Investments

Interests purchased and held in other companies

Property, Plant, and Equipment

Cost of the land, buildings, and equipment owned by a company

List and Differentiate Between Different Types of Accounts

Liabilities: a debt or payable

Accounts Payable	Promise to pay a debt
Notes Payable	Signed notes promising to pay a future amount
Accrued Liabilities	Liability for an expense you have not yet paid

List and Differentiate Between Different Types of Accounts

Stockholders' Equity: the stockholders' claims to the assets of the company

Common Stock	Owners' investment in the corporation through stock
Retained Earnings	Cumulative net income minus net losses and dividends over the company's life
Dividends	Distribution of the company's earnings to its shareholders

List and Differentiate Between Different Types of Accounts

Stockholders' Equity: the stockholders' claims to the assets of the company

Revenues

Increase in stockholders' equity from delivering goods or services to customers

Expenses

Decrease in stockholders' equity due to the cost of operating the business

Learning Objective Three

Show the impact of business transactions on the accounting equation

Show the impact of business transactions on the accounting equation

Example: Alladin Travel, Inc.

To illustrate the accounting for transactions, we will consider 11 transactions and analyze each in terms of its effect on Alladin Travel.

Transaction 1

On, April 1, Starr Williams and a few friends invest \$50,000 to open Alladin Travel, Inc., and the business issues common stock to the stockholders.

<u>Assets</u>		<u>Liabilities</u>	+	<u>Stockholders' Equity</u>	<u>Type of Stockholders' Equity Transaction</u>
Cash				Common Stock	
(1) + 50,000	=			+ 50,000	Issued common stock

Transaction 2

Alladin purchases land for a new location and pays cash of \$40,000.

Assets			Liabilities + Stockholders' Equity		Type of Stockholders' Equity Transaction
Cash	+	Land		Common Stock	
(1) 50,000			}	50,000	Issued common stock
(2) <u>-40,000</u>		<u>+40,000</u>			
Bal 10,000		40,000		<u>50,000</u>	
		50,000		50,000	

Transaction 3

The business buys supplies on account, agreeing to pay \$3,700 within 30 days.

Assets					Liabilities + Stockholders' Equity		
	Cash	+	Supplies	+	Land	Accounts Payable	+ Common Stock
Bal	10,000				40,000		50,000
(3)			+ 3,700			+ 3,700	
Bal	10,000		3,700		40,000	3,700	50,000
					53,700		
						53,700	

Transaction 4

Alladin earns \$7,000 of service revenue by providing services for customers.

Assets					}	=	{	Type of Stockholders' Equity Transaction			
Cash	+	Supplies	+	Land				Liabilities	+	Stockholders' Equity	
						Accounts Payable	+	Common Stock	+	Retained Earnings	
Bal	10,000		3,700		40,000	3,700		50,000			
(4)	+ 7,000									+ 7,000	Service revenue
Bal	<u>17,000</u>		<u>3,700</u>		<u>40,000</u>	<u>3,700</u>		<u>50,000</u>		<u>7,000</u>	
	60,700					60,700					

Transaction 5

Alladin performs services on account, which means that Alladin lets some customers pay later.

Assets					Liabilities + Stockholders' Equity			Type of
	Cash	Accounts Receivable	Supplies	Land	Accounts Payable	Common Stock	Retained Earnings	Equity Transaction
Bal	17,000		3,700	40,000	3,700	50,000	7,000	
(5)		+ 3,000					+ 3,000	Service revenue
Bal	17,000	3,000	3,700	40,000	3,700	50,000	10,000	
	63,700				63,700			

Transaction 6

During the month, Alladin Travel, Inc., pays \$2,700 for the following expenses: rent \$1,100; employee salaries, \$1,200; and utilities, \$400.

Assets					Liabilities + Stockholders' Equity			Type of Stockholders' Equity Transaction
	Cash	Accounts Receivable	Supplies	Land	Accounts Payable	Common Stock	Retained Earnings	
Bal	17,000	3,000	3,700	40,000	3,700	50,000	10,000	
(6)	- 2,700						- 1,100	Rent expense
							- 1,200	Salary expense
							- 400	Utilities expense

Learning Objective Four

Analyze the impact of business transactions on accounts

Analyze the impact of business transactions on accounts

Accounting:

- Double-entry system
- Records dual effects of each transaction
 - At least two accounts in each transaction

Analyze the impact of business transactions on accounts

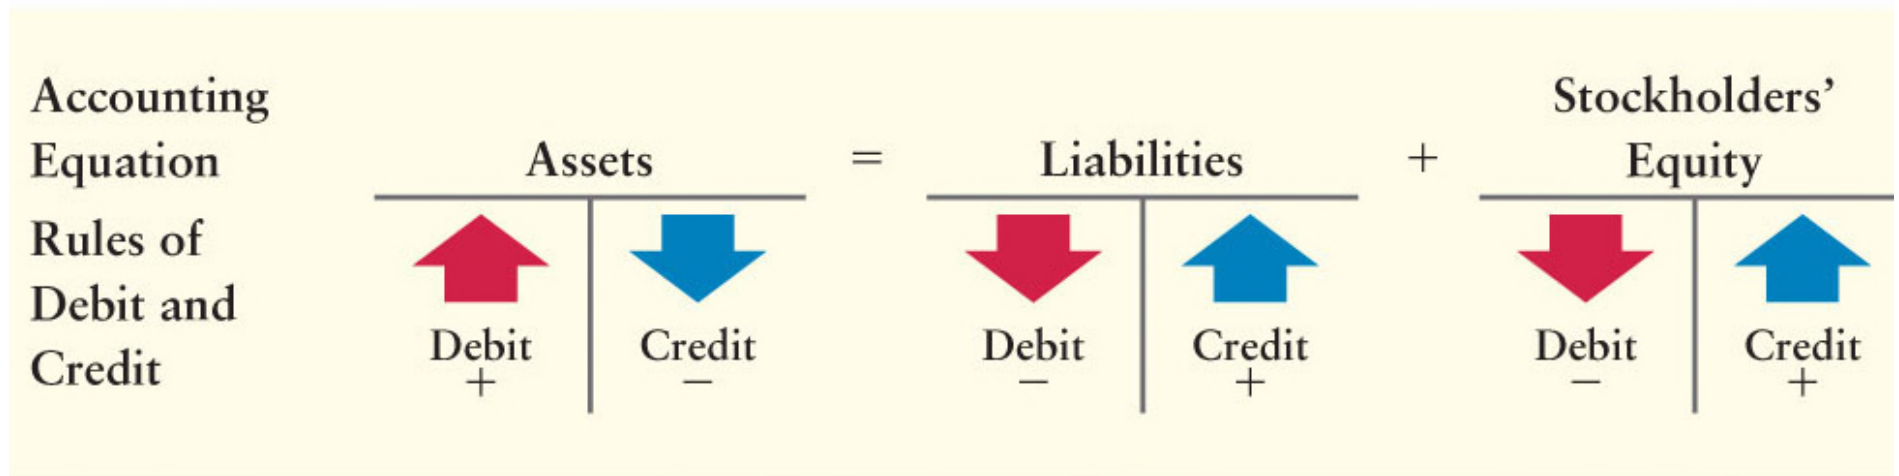

The T-Account

- Record of increases and decreases in a specific asset, liability, equity, revenue, or expense
- Left side = “Debit”
- Right side = “Credit”

Cash	
(Left side)	(Right side)
<i>Debit</i>	<i>Credit</i>
Debit = Left side	Credit = Right side

Exhibit 2-3 | Accounting Equation and the Rules of Debit and Credit

The type of account determines how to record increases and decreases.

4

Exhibit 2-4 | The Accounting Equation after Alladin Travel, Inc.'s, First Transaction

To illustrate, Alladin Travel, Inc., received \$50,000 and issued (gave) stock. What is the effect on the accounts?

4

Exhibit 2-5 | The Accounting Equation after Alladin Travel, Inc.'s, First Two Transactions

Cash		
Bal	50,000	Credit for decrease, 40,000
Bal	10,000	
Land		
		Debit for increase, 40,000
Bal	40,000	

Common Stock	
Bal	50,000

Alladin's second transaction is a \$40,000 cash purchase of land. What is the effect on the accounts?

Additional Stockholders' Equity Accounts: Revenues and Expenses

Two categories of income statement accounts:

- Revenues → increase stockholders' equity
 - result from delivering goods/services
- Expenses → decrease stockholders equity
 - cost of operating the business

4

Exhibit 2-6 | Expansion of the Accounting Equation

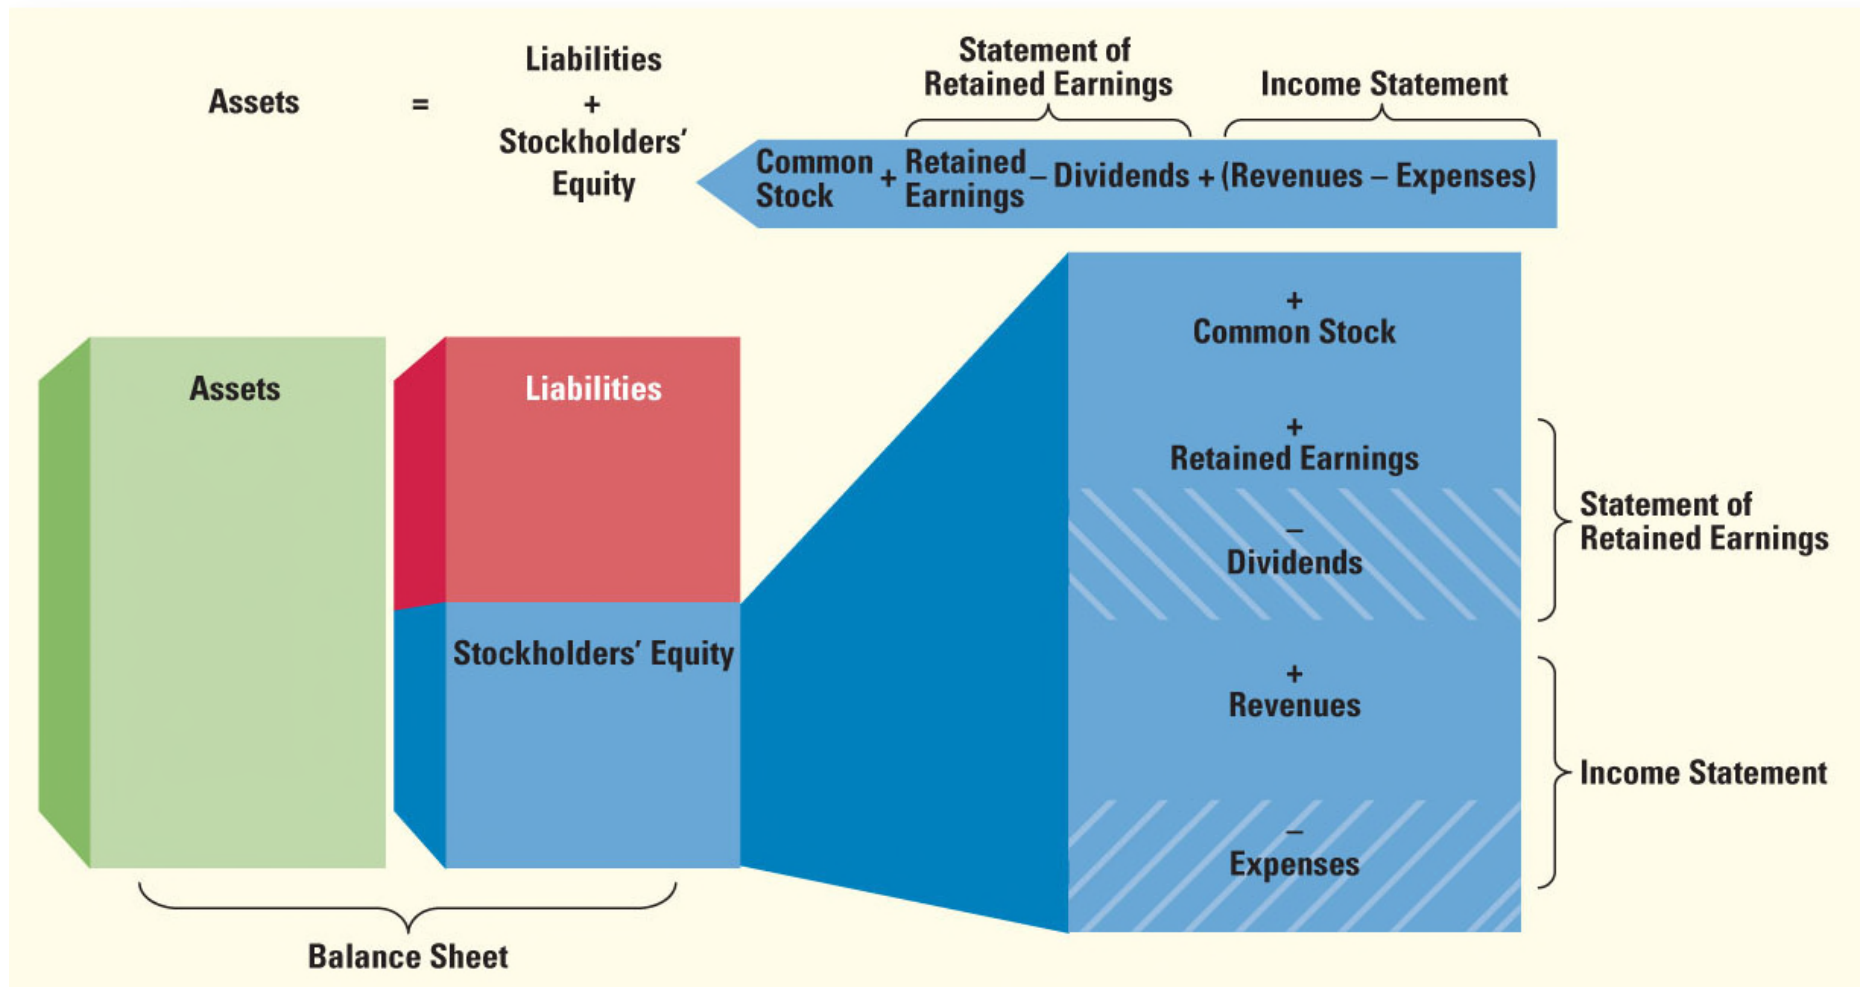

Exhibit 2-7 | Final Form of the Rules of Debit and Credit

ASSETS		=	LIABILITIES		+	STOCKHOLDERS' EQUITY					
Assets			Liabilities			Common Stock		Retained Earnings		Dividends	
Debit	Credit		Debit	Credit		Debit	Credit	Debit	Credit	Debit	Credit

						Revenues		Expenses			
						Debit	Credit	Debit	Credit	Debit	Credit
						-	+	+	-		

Learning Objective Five

Record (journalize and post)
transactions in the books

Record (journalize and post) transactions in the books

Journal

- Chronological record of transactions
- Three steps:
 1. Specify each account affected by the transaction and classify by type
 2. Determine if each account is increased or decreased (debit or credit)
 3. Record in the journal

Record (journalize and post) transactions in the books

Steps to journalize the first transaction of Alladin Travel, Inc.

Step 1 Business receives \$50,000 cash and issues stock

Step 2 Both Cash and Common Stock increase

Step 3 Journalize the transaction:

A1						
	A	B	C	D	E	F
	JOURNAL					
1	Date	Accounts and Explanation	Debit	Credit		
2	Apr 1	Cash	50,000			
3		Common Stock		50,000		
4		<i>Issued common stock.</i>

Learning Objective Six

Construct and use a trial balance

Construct and use a trial balance

Trial Balance

- Lists all accounts with their balances
- Assets listed first, then liabilities and stockholders' equity
- Shows that debits equal credits
- Usually prepared at the end of the period
- Facilitates preparation of the financial statements

A1				
	A	B	C	D
1	Alladin Travel, Inc. Trial Balance April 30, 2016			
2		Balance		
3	Account Title	Debit	Credit	
4	Cash	\$33,300		
5	Accounts receivable	2,000		
6	Supplies	3,700		
7	Land	18,000		
8	Accounts payable		\$ 1,800	
9	Common stock		50,000	
10	Dividends	2,100		
11	Service revenue		10,000	
12	Rent expense	1,100		
13	Salary expense	1,200		
14	Utilities expense	400		
15	Total	\$61,800	\$61,800	
16				

Exhibit 2-12 | Trial Balance

Analyzing Accounts

Suppose Alladin's began May with cash of \$1,000. During May, Alladin's received cash of \$8,000 and ended the month with a cash balance of \$3,000.

You can compute total cash payments by analyzing Alladin's Cash account:

Cash		
Beginning balance	1,000	$x = \text{beginning balance} + \text{cash receipts} - \text{ending balance}$
Cash receipts	8,000	$= 1,000 + 8,000 - 3,000$
Ending balance	3,000	Cash payments $x = 6,000$

Analyzing Accounts

You can compute either sales on account or cash collections on account by analyzing the Accounts Receivable account (using assumed amounts):

Accounts Receivable		
Beginning balance	6,000	$x = \text{beginning balance} + \text{sales on account} - \text{ending balance}$ $= 6,000 + 10,000 - 5,000$
Sales on account	10,000	Collections on account $x = 11,000$
Ending balance	5,000	

Analyzing Accounts

You can determine how much you paid on account by analyzing Accounts Payable (using assumed amounts):

Accounts Payable

$x = \text{beginning balance} + \text{purchases on account} - \text{ending balance}$ $= 9,000 + 6,000 - 11,000$			
Payments on account	$x = 4,000$	Beginning balance	9,000
		Purchases on account	6,000
		Ending balance	11,000

Correcting Accounting Errors

First compute the difference between debits and credits in the trial balance.

- Search for missing accounts
- Divide the out-of-balance amount by 2
- Divide the out-of-balance amount by 9
 - Slide
 - Transposition
