

# SECTION 1

---

## General Information

### A. Suggestions for Effective Use of the Text and Instructor's Guide

---

#### **1. Review of Chapter**

A set of review and discussion questions is included in the text following each chapter. These may be used for class discussion, to reinforce the content within the chapter, as preparation for an exam, or in any other manner that the instructor desires.

#### **2. Student Learning Activities**

Included at the end of each chapter are suggested interactive exercises that will aid the student in learning more about the concepts presented in the chapter. It is suggested that the instructor review these activities prior to teaching the material so that any necessary preparations can be made.

#### **3. Lesson Plans**

Lesson plans for each chapter are included in Section 2 of this guide and have the following format: (1) goal for the chapter and (2) suggested topics for discussion. The goal is an overall learning objective for the chapter. Specific objectives for each chapter are found in the text at the beginning of the chapter. The suggested topics for discussion are presented as a brief outline of the major sections of the chapter.

#### **4. Answers to End-of-Chapter Review Questions**

Section 3 of this guide contains the questions and answers to the end-of-chapter review questions.

#### **5. Objective Tests**

Section 4 of this guide contains objective test items for each chapter in the text. These may be used for pre- and post-testing. The answers to the test items can be found in Section 5 of this guide.

## B. Livestock Associations

Further information on specific animals may be obtained by contacting the breed associations listed here.
